

BETTER PRODUCTS BY DESIGN.

MasterLine® I MaxxPro is a non-repellent termiticide/insecticide that provides a barrier or protective zone around the structure for not only excellent termite control, but superior control of a variety of ant species. Its unique properties allow it to bind to the soil to help reduce movement while still allowing the active ingredient to transfer throughout the colony. Because of its non-repellent characteristics, both termites and ants readily move through the treated areas.

With its expanded label, MasterLine® I MaxxPro is the cost effective choice for superior termite and ant control around your customer's home.

MasterLine® I MaxxPro meets the Univar commitment to high quality and customer satisfaction.

## GUARANTEE TERMS AND CONDITIONS

### I MaxxPro Guarantee Terms and Conditions

If I MaxxPro Insecticide fails to stop termites at any time within five years of initial treatment, we will gladly reimburse you, the direct purchaser of the product ("Buyer"), for I MaxxPro purchase costs and labor costs necessary for a retreatment according to the guidelines set forth below and provided that all terms and conditions of this Guarantee have been met.

### I MaxxPro Guarantee Qualifications

- This Guarantee is valid only for structures receiving an initial full treatment\* of I MaxxPro and is not valid with partial treatments.
- I MaxxPro must be used and applied at full treatment rates as set forth in the label. Buyer must read and follow label directions. Failure to follow directions and apply at label rates may lead to disqualification of the guarantee for all of Buyer's registered structures, at the sole discretion of Univar.
- The I MaxxPro Guarantee is valid only for qualified initial treatments to structures beginning 1/1/06.
- Buyer must register the structure on [www.PestWeb.com](http://www.PestWeb.com) within 45 days of initial treatment. Buyer's registration must contain the following accurate information; treatment site address, property type, treatment date, linear feet, treatment rate, gallons of dilution applied, and treatment type.
- Buyer must inspect the treatment site on an annual basis.
- Prior to applying I MaxxPro, Buyer must inspect the entire structure and prepare a sketch indicating evidence, if any, of termites and condition of the termite damage. The sketch document should include the application date, the rate of I MaxxPro used and how I MaxxPro was applied.
- I MaxxPro must be used for all retreatments. Retreatments must be completed within 90 days of detecting reinfestation.

### Settlement Claims – Limit One Claim per Registered Structure

I MaxxPro Guarantee settlement claims will be made within these limits:

- Buyer must submit claims within 90 days of retreatment.
- All claims shall be submitted at [www.PestWeb.com](http://www.PestWeb.com).
- Univar will reimburse all valid claims for up to 100% of Buyer's I Maxx Pro retreatment cost and Buyer's labor cost for the retreatment, up to a maximum of \$1,000 for registered residential structures.

- Univar will reimburse all valid claims for commercial retreatment at 100% of I MaxxPro cost of retreatment and Buyer's labor cost for the retreatment, up to a maximum of \$5,000 for registered commercial structures.
- Where Buyer submits a claim to its insurance company for structural damage to a registered structure and its insurance company pays such claim, Univar will reimburse up to 50% of Buyer's insurance deductible up to a maximum of \$500 per structure.
- Other than the insurance deductible reimbursement described above, structural damage is not covered by the I MaxxPro Guarantee.
- Claims may include; reimbursement of costs of retreatment product, labor costs for retreatment and payment of insurance deductible as described above on a single registered structure.

### Additional Terms

These Terms and conditions may be amended or modified by Univar at anytime without notice.

Univar reserves the right to review all treatment records, Buyer shall maintain all records for a period of 5 years from the date of claim.

- Claims may be paid with check or with I MaxxPro, if available, and selected by Buyer.
- Univar reserves the right to modify or terminate this Guarantee at any time without notice.

This guarantee represents Buyer's sole remedy in the event I MaxxPro fails to stop termites within five years of treatment. Univar is not liable for any other damages except those described in this Guarantee. **UNIVAR IS NOT LIABLE FOR ANY CONSEQUENTIAL INCIDENTAL OR PUNITIVE DAMAGES.** This guarantee is only applicable to the Buyer and is not assignable to any other party, including but not limited to, purchasers of the I MaxxPro or any users of I MaxxPro other than Buyer.

\* Full treatment: Each I MaxxPro product label describes a full treatment of I MaxxPro Termiticide/Insecticide along with the proper dilution rates to be used in order to qualify for the I MaxxPro Guarantee.
